

Setting up your Clever Family Portal account: Parents

If you have shared your email with your child's school and that email has been added into Campus, you as a parent will go through the following steps:

1. Receive an email invite from your child's school district with a link to set up your account.

If you have multiple children in the same school district, you will receive multiple invitations—one for each child. You must click the link to each unique invitation to be connected to all of your children using Clever. Click on the link in the email and proceed to the next step.

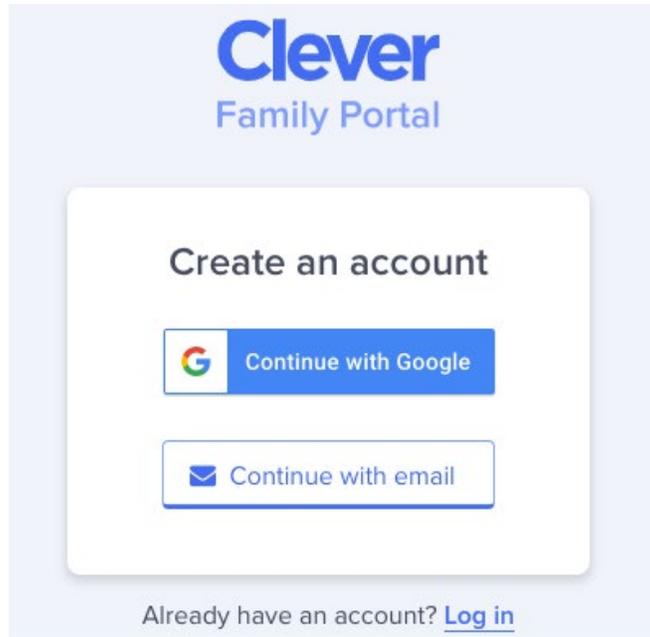

2. Confirm your invite.

Once you click on the link you will be taken to a Family Portal web page. If you see the correct school and name for your child, awesome! Click the blue button to confirm.

If the name that appears is not the name of your child, it is likely your district has not associated you with the correct student. Please reach out to your school district to resolve.

3. Choose your login method.

If you'd like to use your Google email account to connect to Clever, choose **Continue with Google**. This email does not need to match the email address that received the district invitation.

If you choose **Continue with email** you can link any valid email address to the Clever account. You will also be asked to set a password, which can be changed later. .

If you **have already set up your account and connected with another child**, you will be prompted to log in again and connect to another child, without having to set up another email account.

4. Welcome to your Clever Family Portal!

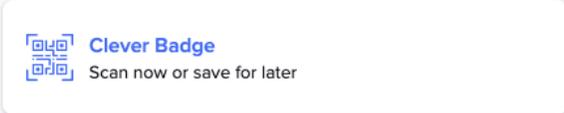

Help Ruby log in to Clever

Log in on this device:

A blue rectangular button with a white circular arrow icon on the left. To the right of the icon, the text reads 'Instant login' in bold and 'Click to log in now' below it.

Log in on a different device:

A light gray rectangular button with a QR code icon on the left. To the right of the icon, the text reads 'Clever Badge' in bold and 'Scan now or save for later' below it.

After confirming your email, you will be automatically signed in and can help your child log in to their Clever account!

Using Family Portal to help your child log in

If your child cannot log in to Clever, you can help them log in using your account in Clever Family Portal. Use your family account to 1. log in as your child, or 2. provide alternative login methods for your child. Sign into your family account here -> family.clever.com

To log in as your child, click the **instant login** button. This will automatically log the student into their Clever portal with the device you are using. Clicking the instant login button will also log you out of the family account. To return to your Clever Family Portal account, you will need to log in again.
